

KANT-TWIST CLAMPS

THE PROVEN STANDARD IN UNIVERSAL CLAMPING DEVICES

- Combines the best features of "C" and parallel clamps.
- Kant-Twist clamps weigh approximately half as much as comparable C-clamps, yet are much stronger by actual test.
- The only "C" clamp with built in "V" Blocks.
- Provides new freedom of movement.
- Eliminates distorting and twisting.
- Provides three different gripping surfaces.

**HIGH TENSILE STEEL
WITH COPPER PLATED JAWS, SCREW & T HANDLE**
